EDUCATION

Ajay Kumar Garg Engineering College, AKTU

B.Tech in Computer Science and Engineering (Data Science) – CGPA: 8.3

2023 – 2027

Ghaziabad, India

Senior Secondary Education (Class XII)

Percentage: 92%

2023

Uttar Pradesh, India

Secondary School Education (Class X)

Percentage: 96.2%

2021

Uttar Pradesh, India

TECHNICAL SKILLS

- **Languages:** Java, Python, SQL, JavaScript, TypeScript, HTML, CSS
- **Backend:** Spring Boot, Spring Security, Spring Data JPA, Hibernate, REST APIs, JWT Authentication, BCrypt
- **Frontend:** React, Tailwind CSS, Vite **Databases:** MySQL, MongoDB, H2
- **Tools & Testing:** Git, GitHub, Maven, Postman, JUnit 5, Mockito, IntelliJ IDEA, VS Code
- **Core Concepts:** Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), Database Management Systems (DBMS), Operating Systems, Computer Networks, Software Development Life Cycle (SDLC)

EXPERIENCE

Neosix Technologies (neosix.in)

July 2026 – Present

Co-Founder, Chief Product Officer (CPO) & Chief Operating Officer (COO)

Remote

- Co-founded a software solutions startup and direct product strategy, feature planning, and delivery operations for a 6–7 member team.
- Translate business needs into technical specifications, system architecture, and prioritized development roadmaps.
- Lead the first client engagement end to end across 5 delivery stages: scoping, task allocation, timelines, quality assurance, and release.

Vidarthimitra.org

June 2026 – Present

Software Development Intern – Full-Stack

Remote

- Resolved 30+ backend defects and shipped new features across production web applications.
- Rebuilt 20+ pages with HTML, CSS, and JavaScript and wired the interfaces to server-side REST endpoints.
- Supported debugging, performance tuning, and deployment cycles while collaborating with developers through Git and GitHub.

Slum Swaraj Foundation (NGO)

April 2025 – Present

Volunteer Educator

Uttar Pradesh, India

- Teach and mentor underprivileged children living in slum communities.
- Conduct regular learning sessions that contribute to stronger educational outcomes.

PROJECTS

Neosix.in – Software Solutions Platform | Java, MySQL, React, TypeScript, Tailwind CSS, Vite, REST APIs | Repository 2026

- Engineered the complete Java and MySQL backend independently, paired with a responsive React, TypeScript, and Tailwind CSS interface across 10 pages.
- Designed 15+ RESTful endpoints with relational schema, authentication, input validation, and structured error responses for secure client-server exchange.
- Tuned database queries and packaged reusable service layers to support ongoing feature rollout.

Banking System | Java 17, Spring Boot 3, Spring Security, JWT, JPA, MySQL, H2 | Repository

2026

- Architected a secure banking application on Java 17 and Spring Boot 3 across a 3-layer controller, service, and repository structure.
- Implemented OTP-verified registration and login, JWT session management, BCrypt hashing, and role-based access across 2 roles (USER, ADMIN).
- Developed 10+ REST APIs covering 6 core operations: account creation, deposits, withdrawals, transfers, transaction history, and admin actions.
- Added ownership validation, global exception handling, and 10+ unit tests written with JUnit 5 and Mockito.

ACHIEVEMENTS

- Qualified **GATE 2026** in Computer Science and Information Technology, a national-level engineering examination.
- Solved **100+ problems on LeetCode** spanning arrays, strings, trees, recursion, and dynamic programming.
- Achieved a **1185 rating on CodeChef** through regular participation in timed competitive programming contests.
